Debbie,

I spoke to the Mayor after our phone conversation. Like I told you we have distributed a copy of your fact sheet to City Council. The Mayor told me that he has not received any comments with regard to the fact sheet. One of the council members that represents the ward that the landfill is in had a death in the family which may be part of the reason we have had no response from them.

The Mayor prefers to meet with the EPA only if the Council is included in the meeting. The Mayor will ask Council at the next regular meeting to see if they want a verbal report.
